Powering the World's Greatest Discoveries
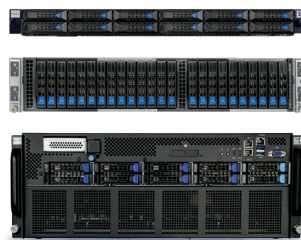

Your Success is Our Mission

- ✅ Configuring Workload Optimized Systems Since 1992
- ✅ Extensive Partner Network Trusted by Thousands

Exact Corporation turns your computing goals into reality with powerful, highly configurable platforms tailored to your unique needs. Whether advancing scientific research, conducting engineering simulations, or developing AI and machine learning applications, Exxact has you covered. Our workstations, servers, and cluster solutions provide the performance, reliability, and scalability essential to driving innovation and achieving success.

Workstations

- ✅ Single & Dual Server CPU Socket Platforms
- ✅ Multi-GPU Support
- ✅ Tower & Rackmountable Form Factors

Servers

- ✅ Up to 10x GPU Support
- ✅ Compute, Storage, & General Purpose Platforms
- ✅ NVIDIA HGX, MGX, DGX & AMD Instinct Available

Clusters

- ✅ Comprehensive Computer Node, High Density Storage, & Network Configurations
- ✅ Turnkey Cluster Management Software
- ✅ Optimized for Any Use Case & Application

Application Specialty

- HPC
- Generative AI/LLM
- Design Simulation
  - Ansys
  - Siemens
  - Dassault
  - CPFD
  - Particleworks
- 3D Content Creation
- R&D
- Molecular Dynamics
  - AMBER
  - CryoSPARC
  - GROMACS
  - NAMD
  - Relion for Cryo-EM
  - Schrodinger
  - Protein Folding

Engineered for Precision & Reliability

1. Hardware & Software Compatibility/Validation

2. OS/Software Installation

3. Cooling & Power Management
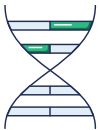

4. In-Depth Burn-In Stress Test

5. Integration & Infrastructure

6. Rack-level Assembly & Deployment
